## Summary

I'm a **Web Designer & Frontend Developer** who loves creating clean, modern, and user-friendly designs. I specialize in **Figma**, designing intuitive UI/UX experiences, wireframes, and prototypes. I also have experience in **HTML & CSS**, bringing designs to life with smooth, responsive layouts. My focus is on delivering visually appealing and functional websites that enhance user engagement. Always eager to learn and improve, I stay updated with the latest design and development trends.

<b>Kips College</b>	<b>August 2022 - August 2024</b>
1st Division	FSC. Engineering
<b>TMUC</b>	<b>HND Computing</b>
On-Going	

## Projects

- Gujjar's Grill (Fast Food Shop)**  
Designed a long, visually stunning web layout for a fast-food shop, ensuring a modern and engaging user experience with well-structured sections for the menu, offers, and customer reviews.
- G-Fit**  
Created a bold gym landing page with a modern and energetic UI.
- Gravlon Technologies**  
Developed a sleek software house landing page showcasing services and expertise.
- Gujjar Hospital**  
Designed a clean healthcare website with easy navigation for patients.
- Portfolio Website**  
Built a personal portfolio to showcase web design and development skills.
- ZK Shoes**  
Created an e-commerce landing page with a modern shopping experience.
- UG Vape**  
Designed a stylish vape store website with a sleek and engaging interface.
- Logo Design**  
Created memorable logos that effectively represent the brand's identity and values, ensuring strong visual appeal and recognition across various platforms.
- Letterhead Design**  
Designed professional letterheads with clean, branded layouts.
- Business Card Design**  
Crafted eye-catching business cards for a lasting impression.
